

Ty-Gard 2000® is a one of the most versatile cargo-securing systems on the market and is approved for securing cargo in shipping containers with large drums, Big Bags, IBCs and all types of pallet-sacked goods.

Characteristics and benefits:

- Prevents longitudinal loads from moving
- Comes in a 16" flexible band
- Laminated with a very strong, pressure-sensitive acrylic adhesive which is highly resistant to nicks and cuts from the container wall
- The adhesive is easy to remove and leaves no residual marks
- Can be used on drums, flexible bags, pallet-stacked products and rolls of paper
- Adhesion in a wide range of temperatures
- Easy application in just a few minutes
