

Collapsible box with galvanised hinges. Each module is 200 mm tall. It can also be used to seal single-cover packaging. The wooden sleeves allow the packaging to be assembled to the height required for each shipment. This packaging is reusable thanks to its simple fastening system. It is suitable for use in a wide range of industrial sectors (automobile, bearings, electronics, IT, metal structures, iron and steel, chemical, foodstuffs, etc.).

Characteristics and benefits:

- Modular (easy assembly)
- Collapsible (save on space)
- Reusable (save on costs)
- Hard wearing
- Maximum product protection

Standard measurements (sleeves and lids):

- 600x800x200 mm
- 1200x800x200 mm
- 1200x1000x200 mm
