

The main advantage of these bags over conventional ones is they can be opened and closed as many times as required. You can fill them with any accessory or product, remove the necessary amount and then re-close the bag.

They are very useful for bagging samples, furniture accessories, household electrical goods, machinery, etc., police reports and any small items such as pins, tokens, screws, pegs, buttons, etc.

Characteristics:

- Made from transparent Low-density polyethylene (LDPE).
- With watertight seal: the male and female sides of the sealing strip lock together when pressed by hand.
- Available in different sizes and thicknesses.
- They can be made to other measurements and thicknesses and printed in various colours, upon request.
- Suitable for use with foodstuffs.
- Compliant with Royal Decree 866/2008, on plastics intended to come into contact with food, which transposes Directive 2002/72/CE (replaced by European Regulation 10/2011).
- Overall migration testing in accordance with European Standard EN 1186:2002
- Reusable.
