

Aluminium envelopes with bubble wrap lining.

Preserva Jewelry was established to create and distribute a product designed to look after whatever is most precious to you. Our passion for innovation means we are constantly looking for and creating new packaging materials in order to dress our customers' products and creations as they deserve to be dressed.

We choose the materials, formats and measurements that best meet the needs of your product.

All Preserva Jewelry products are customisable and passed all necessary quality checks before being released for sale. We sell metallised aluminium padded with bubble wrap (burlux) and boxes and bags in a wide range of standard sizes. In addition, we also provide special measurements upon request for an even closer fit for your product.

Preserva Jewelry provides innovative packaging that is easily adaptable to any type of product such as watches, CDs, bags, bottles, jewellery, magazines, cases and many more. We always adapt to your needs.

With Velcro closure or self-sealing adhesive, your product will remain in perfect condition up until they are used.

Products as exclusive as your imagination can create.
