

Boxes made from cardboard and wood, with top opening and double wall cardboard lid.

The side walls are reinforced with wood so the boxes can be stacked, offering easy storage and transport of the packed goods.

**Characteristics:**

- Exceptional strength, protection and conservation of content.
- They can be custom built and designed for both manual and mechanical handling and transport.
- Available in double or triple wall
- Additional protective elements available: closure systems, handles, wheels, etc.
- Totally recyclable
